

Assignment - 02 IHVPE

Section - A

Q.1 • Self-enquiry : The process of introspection where a person questions their thoughts, beliefs and purpose (e.g., "Who am I?").

- self-discovery : The outcome of self-enquiry - gaining understanding of one's true nature, values, strength and purpose.

Q.2 Universal values are ethical principles accepted by all humans regardless of culture or religion, such as:

- Truth
- Peace
- Love
- Non-Violence
- Integrity

They promote harmony and ethical living.

Q.3 Deep listening means :

- Listening with full attention and empathy.
- Understanding emotions and intention behind words.
- Avoiding interruption or judgment.

It improves relationships and communication.

Q.4 Bias refers to :

- A preconceived opinion or prejudice that affects judgement.
- It can be conscious or unconscious.
- Leads to unfair or unethical decision.

E.g. :- Favoring someone due to personal connection.

Q.5 • Yama :- Ethical restraints (how we treat others).

- Niyama :- Personal observation (how we treat ourselves).

They are foundational principles of yoga philosophy.

Section - B

Q.6 • Knowing the self means understanding one's thoughts, emotions, values and behavior.

Importance : • Helps in making correct ethical decision.
Builds self-awareness and self-control
Reduces conflicts and confusion
Promotes integrity and authenticity.

E.g. :- A person aware of their anger can control reactions and act ethically.

Q.7 • Four Profiles of self-Identity

1. Inner Potential : • Hidden abilities, talents and capabilities.
• Drives personal growth.

2. Social Identity : • Role in society (friend, citizen, family member).
• Influences behavior and responsibilities.
3. Professional Identity : • Career-related role (engineer, doctor, etc.)
Defines skills, ethics and responsibilities.
4. Personality : • External behavior and traits.
• How others perceive us.

Together, they shape a complete identity.

Aspect	Ideology	Values
Meaning	Set of beliefs or ideas	Moral principle
Nature	Rigid, group-based	Flexible, universal
Source	Political / Social systems	Human conscience
Example	Capitalism, socialism	Honesty, respect

E.g :- Ideology : Supporting a political system
Value : Being honest regardless of system.

Section - C

Q.9 Assumptions :- Beliefs taken as true without proof.

Biases :- Prejudices affecting judgment.

Impact :- • Lead to unfair decision
• Distort reality.
• Create discrimination

How recognizing them helps :

- Improves objectivity.
- Encourages critical thinking.
- Promotes fairness and justice.
- Enhances ethical awareness.

Eg :- A manager avoiding bias ensures equal opportunities for all employees.

Q.10 In Personal Life :

- Builds strong character.
- Improves relationships.
- Brings inner peace and happiness.

In Professional Life :

- Ensure ethical conduct
- Builds trust and reputation
- Promotes teamwork and fairness.

Overall Benefits :

- Social harmony
- Reduced conflicts.
- Sustainable development.

Eg :- Honesty in business leads to long-term success.

Q.11

Mindfulness :

- Being aware of present thoughts and actions.
- Helps control emotions and reactions.
- Leads to better decision-making.

Yama (Ethical Restraints)

1. Ahimsa (Non-violence)
2. Satya (Truth)
3. Asteya (Non-stealing)
4. Brahmacharya (Self-control)
5. Aparigraha (Non-possessiveness).

Niyama (Personal Discipline)

1. Saucha (Cleanliness)
2. Santosha (Contentment)
3. Tapas (Discipline)
4. Svadhyaya (Self-study)
5. Ishvara Pranidhana (Surrender to higher reality)

Role in Developing Ethics

- Builds self-discipline and moral character.
- Encourages responsible behavior.
- Enhances emotional intelligence.
- Promotes balance between mind and actions.
