

Assignment - 1 Professional Skills

PART-A

Q.1 A resume is a formal document that summarizes a personal educational background, skills, work experience and achievements.

Its primary purpose is to present the candidate's qualifications to an employer and secure an interview opportunity.

- Q.2
1. Personal details
 2. Educational qualification
 3. Skills
 4. Work experience / internship

Q.3 A resume is a short and concise document, usually one or two pages, focusing on skills and job-related experience.

A CV is a detailed document containing complete academic history, research work, publications and achievements.

Q.4 Interview skills are important because they help candidates communicate effectively, present their abilities confidently and create a positive impression, increasing their chances of getting selected.

- Q.5
1. Clear communication
 2. Positive body language
 3. Confidence
 4. Active listening

PART-B

Q.1

A resume plays a crucial role in the job application process as it is often the first interaction between an employer and a candidate. It highlights the candidate's qualifications, skills and experience in a structured manner. A well-prepared resume increases the chances of being shortlisted.

Key components of an effective resume include:

- Personal Details : Name, Contact number, email address
- Career Objective : E.g:- "To secure an entry-level position where I can apply my technical skills and grow professionally."
- Educational Qualifications : Degree, University, year of passing.
- Skills : Technical skills, communication skills.
- Experience / Achievements : Internships, certificates, awards.

Q.2

Do's : 1. Use clear and simple language.

2. Keep the resume concise

3. Highlight relevant skills.

4. Proofread for errors.

Don'ts : 1. Do not include false information.

2. Avoid grammatical mistakes.

3. Do not use unnecessary graphics.

4. Avoid lengthy paragraphs.

Q.3 Many candidates make mistakes such as not researching the company, lacking confidence, poor body language, inappropriate dressing and giving unclear answers. Some candidates also fail to listen carefully to questions or arrive late, which creates a negative impression on the interviewer.

PART - C

Q.1 Before the interview :

- Research the company
- Prepare answers to common questions
- Dress professionally
- Practice mock interview.

During the interview :

- Maintain eye contact.
- Speak clearly and confidently
- Show positive body language.
- Listen carefully before answering.

After the interview :

- Thank the interviewer.
- Reflect on performance.
- Follow up professionally if required.

Q.2 1. Communication Skills : These skills help a candidate express thoughts clearly and confidently.

Eg : Answering question in a clear, structured manner without hesitation.

2. Technical Skills : These refer to job-related knowledge and subject expertise.

Eg :- A computer science student explaining C++ concepts during a technical interview.

3. Interpersonal Skills : These skills help build positive relationships with the interviewer.
Eg: Being polite, respectful and maintaining a friendly attitude through the interview.
4. Problem - Solving Skills : These skills show analytical and logical thinking.
Eg: Solving a situational or case-based question effectively.
5. Time Management Skills : This involves giving precise and relevant answers within limited time.
Eg:- Answering question concisely without unnecessary details.
6. Body Language Skills : Body language reflects confidence and professionalism.
Eg: Maintaining eye contact, sitting straight and using appropriate hand gesture.
7. Listening Skills : Active listening helps candidates understand question accurately.
Eg: Listening carefully to the interviewer's question before answering.
