

Assignment - 2 Professional Skills

PART - A

62

Leet

Q.1 Group Discussion (GD) is a method of communication in which a group of individuals discuss a given topic to share ideas, express opinions, and reach a conclusion. It is commonly used in selection processes to assess communication skills, leadership and teamwork.

Q.2 • To evaluate communication and interpersonal skills of candidates.

• To assess leadership qualities and ability to work in a team.

Q.3 (i) Topic-based Group Discussion.

(ii) Case Study based Group Discussion.

Q.4 Career exploration is the process of identifying and understanding different career options based on one's interests, skills, values and goals in order to make informed career decision.

Q.5 (i) Internet and career websites.

(ii) Career counselors or mentor.

PART - B

Q.1 Importance of Group Discussion :-

1. Helps recruiters evaluate communication skills.
2. Assesses leadership and initiatives.
3. Tests problem-solving ability.
4. Evaluates teamwork and cooperation.
5. Checks confidence and subject knowledge.
6. Observes listening skills.
7. Identifies decision-making ability.

Essential skills for Effective Participation:

- Clear and confident communication
- Active listening
- Logical thinking
- Respect for other's opinions
- Leadership qualities
- Time management
- Positive body language.

- Q.2 Common mistakes include:
- (i) Lack of preparation and subject knowledge.
 - (ii) Dominating the discussion or interrupting others.
 - (iii) Remaining silent throughout the discussion.
 - (iv) Poor communication skills and unclear speech.
 - (v) Negative body language (lack of eye contact, nervousness).
 - (vi) Going off-topic.
 - (vii) Being aggressive or disrespectful.

- Q.3 The process of career exploration includes:

1. Self-Assessment : Identify strengths, weaknesses, interests and values.
E.g:- A student interested in coding may choose software development.
2. Research : Gather information about careers, qualifications and growth opportunities.
E.g:- Researching about Data Science roles and required skills.
3. Skill Development : Acquire required technical and soft skills.
E.g:- Learning Python for programming careers.
4. Experience : Internships and projects.
E.g:- Doing internship in an IT company.
5. Decision Making : Choose a suitable career path based on research and experience.

PART - C

Q.1 Types of Group Discussion :-

- (i) Topic-Based GD :- General or current topics.
- (ii) Case Study GD :- Based on business or real-life situations.
- (iii) Abstract GD :- Abstract topics like "Blue is better than Red".
- (iv) Debate GD :- For and against arguments.

Procedure of GD :-

- (i) Introduction of topic.

- (ii) Thinking time (1-2 minutes).
- (iii) Discussion begins.
- (iv) Exchange of ideas and arguments.
- (v) Conclusion or summary.
- (vi) Evaluation by panel.

How GD helps in Personality Development :

- Improves communication skills.
- Enhances confidence.
- Develops leadership qualities.
- Improves listening skills.
- Builds critical thinking ability.
- Encourages teamwork.
- Improves decision-making skills.

Q.2 Concept of Career Exploration : Career exploration is a systematic process of understanding personal interests, abilities and career options to make the right professional choice.

Importance of Knowing Oneself :

- Helps identify strengths and weaknesses.
- Clarifies career goals.
- Increases self-confidence.
- Prevents wrong career choices.

E.g :- A person with good communication skills may choose marketing or HR.

Importance of Industry Knowledge :

- Understands job market trends.
- Identifies required qualifications and skills.
- Helps in planning education accordingly.
- Increases employability.

Eg :- Knowing that AI is in demand helps students learn AI Tools.

a.3 Career - Based Preparation : career preparation involves planning and developing skills required for achieving career goals.

Steps include :

1. Setting career goals.
2. Acquiring relevant education and skills.
3. Building soft skills (communication, teamwork).
4. Preparing resume and attending interviews.
5. Gaining experience through internships.

Sources of Career Information :

1. Internet and Career Portals : Provide job trends and requirements.
2. Career Counselors : Offer guidance and aptitude tests.
3. Teachers and Mentors : Provide academic and professional advice.
4. Workshops and Seminars : Give industry insights.
5. Internships and Job fairs : Provide practical exposure.

How They Help :

- Provide updated information about careers.
- Help compare different options.
- Clarify qualifications and skills required.
- Assist in making informed decisions.

In conclusion, career-based preparation and reliable information sources help students choose the right career path and achieve success.
